

Rajamec Group

Company Profile

ABOUT US

Rajamec started as a trading company, established in 1997, which aims, at this time, to help consulting our partners to purchase the highest quality components for white goods with reasonable price. In 2003, we extended our scope to start a manufacturing company which introduced new manufacturing technology to Africa and the middle east by making the ceramic part of the spark plug and silicone oven gasket. Moreover, we have manufactured the switches, refrigerator gasket, oven lamp and much more.

In 2018, we have established a new factory that is responsible in making, repairing and maintaining molds.

Nowadays, we have a large variety of products and products' design.

Our Vision

The vision of Rajamec is to continue the heritage of our Company and be a premier global manufacturer and consultant of top quality components. We dedicate ourselves to be the supplier of choice when our type of products are being sought. This vision will be accomplished by sharing the responsibilities of planning and decision making with all of our employees. Rajamec will strive to maintain the image it has developed over the many years with its suppliers, employees and community as a company of excellence.

Our Mission

Our mission is to produce and continually develop quality products at a competitive price while fostering a climate where environmental technologies can thrive. We will always strive to service our customer with the utmost integrity, and to their complete satisfaction. It is our goal to ensure our mission by continuous self improvement, growth in our operations and employees; while maintaining profitability to the benefit of our customers, employees, and community. All employees will work together in combining their efforts and skills to ensure our mission and goals are fulfilled in a courteous manner
